Education and Research

Research Groups

Human Resources Studies Research Group

The purpose of this group is to conduct basic studies and problem solving in the field of Human Resources and Organizational Behavior in order to solve problems and provide solutions for improvement in industry and public and private organizations. The fields in which the Human Resources Studies Research Group acts upon are to bridge the gap between the institute and industry and also conduct applied research, training, consulting and services in the field of organizational behavior and human resources.

Systems Dynamics Research Group

The mission of Systems Dynamics Research Group is to study and research in the field of Systems Dynamics in order to solve organizational and national problems. Based on the above mission, the working areas of the group include conducting studies and applied research projects with systems dynamics approach, holding training courses and specialized workshops, providing advice and services in the field of analysis of organizations, firms and businesses and publishing research findings, promotion.

Quality of Education and Research

At Imam Javad Higher Education Institute, our professors are always seeking new innovative ways to create the best educational experience for the students. We attract prominent professors in various fields and disciplines who, in addition to their interest and expertise in their field, are also eager to conduct rigorous research in that field. The high percentage of employment of the graduates of this institute indicates the successful performance of the institute in teaching the required knowledge and skills. Imam Javad Higher Education Institute has been very successful in establishing relations with society and industry and meeting its research needs, and is expanding its research activities by forming numerous research groups in various fields.

Achievements

- Selection of university faculty members as the top provincial researchers.
- Conducting various research projects by faculty members and the institute to meet the needs of industry and society professors.
- Implementation of UniNext project with the aim of applying theory lessons and entrepreneurship education to students

Graduation Ceremony 2018

Student Experience

Imam Javad Higher Education Institute has provided an attractive educational environment including different cultures by admitting students from all over the country. This institute is located in one of the renowned heritage sites of the world, i. e. the historical city of Yazd, a sustainable city that has long been celebrated for its people and rich culture representing hospitality, tolerance, entrepreneurship, and perseverance. Enjoying more than 55 fields of study at different levels, the students of this institute, in addition to having the right to choose to acquire knowledge in different fields and subfields, are also driven to obtain intellectual independence. The directors, professors, and all the staff at Imam Javad Higher Education Institute strive to take actions that can help students in addition to completing their education. They help them to develop their individual abilities as creative and hardworking citizens. Imam Javad Higher Education Institute is, on the one hand, large enough so that it has created extraordinary educational and employment opportunities for students, and on the other hand, it is small enough that it has a warm and friendly environment by providing academic and personal advisors to support all the students. We are constantly investing in providing the infrastructure and requirements for our students, including new faculty members, teaching experts, buildings, equipment, software, and even more.

Students' Entrepreneurship Club

The University Entrepreneurship Center was opened in 2009 in order to promote the culture of entrepreneurship among professors and students, as well as to increase the skills of university graduates. In this regard, during the past few years and with the full support of the board of the institute, while holding workshops, training courses, events, visits, etc., it has tried to provide students with skills related to each field of study, along with educational topics. Also, the Entrepreneurship Center, as the custodian of Scientific Associations, with purposeful planning, while attracting active students to participate in precise and scientific activities, has organized camps, ceremonies and a series of meetings. In recent years, in accordance with scientific, educational and research developments inside and outside the country, Imam Javad Higher Education Institute, as a third generation university and entrepreneur, has a special emphasis on the activities of the Entrepreneurship Center while supporting students with ideas and creativity by launching The Innovation Center has been a great help to applicants, students and professors interested in starting new businesses. Meanwhile, in this university, taking advantage of the high capacity of the Board of Directors and professors, a very good interaction has been made with the Chamber of Commerce, Industries, Mines and Agriculture of Yazd, such that now the Entrepreneurship Center of Imam Javad Higher Education Institute is a member of Iran Science and Work Center. With the cooperation of this center, interested students are introduced to various industries and factories to undergo internships and internships.
